Front-end developer
 - Worked on technologies like javascript, CSS, HTML and React js.
 - Creating a user interface with the highest functionality with React.js
 - Worked on hrms app which is used by the employees of the same company

- Foiwe Info Global Solutions Pvt Ltd. (February 17, 2020 - June 15, 2021)
Front-end developer
 - Worked on technologies like JavaScript, CSS, HTML, React Js.
 - Built reusable components with highest functionality.
 - Helped teams with debugging tasks on different projects in the developing phase.

PROJECTS

- Mail Box Client Application
Created a mail box application where users can login , send and receive messages
 - Frontend - HTML, CSS, JS, React JS, Redux.
 - In this, user can send and receive mails. Each user has their own account and users cannot access other users data.
 - Implemented GET/POST/PUT requests to firebase in order to retrieve user specific information for each user.
 - Responsive web design using CSS and HTML.

<https://github.com/SushmaGowda7/mail-box-client-react-app>

- Expense Tracker
Created an expense tracker where a user can sign up and login, add and remove expenses and also download the expenses.
 - Frontend - HTML, CSS, JS, React JS, Redux.
 - It allows user to track their expenses and premium users can get extra benefits.
 - Users can download their expense in csv format.
 - Users expenses data is protected using authentication method.
 - Implemented firebase real-time data to manage data at backend.

<https://github.com/SushmaGowda7/Expence-Tracker-react-app>

- E-Commerce Website
Created an ecommerce website where a user can add and remove products to the cart .

- Frontend: HTML, CSS, JS, React JS.
- This application gives user the option to see different products and add them to cart, manipulate cart data. User needs to login to access their cart and users can see the product details as well.
- Used React hooks to manage state.
- Used firebase for authentication and real time data for storage.
